Description:

Prepare your students for success in their future careers with **Burton's Microbiology for the Health Sciences, 10e**. Featuring a clear and friendly writing style that emphasizes the relevance of microbiology to a career in the health professions, the Tenth Edition offers a dramatically updated art program, new case studies that provide a real-life context for the content, the latest information

on bacterial pathogens, an unsurpassed array of online teaching and learning resources, and much more.

To ensure content mastery, this market-leading book for the one-semester course clarifies concepts, defines key terms, and is packed with in-text learning tools that make the content inviting and easy to understand. The Tenth Edition provides a wide range of online teaching and learning resources to save you time and help your students succeed.

Instructor Resources:

- **An Image Bank** featuring all figures and tables from the book enhances lecture and exam preparation.
- **A robust Test Generator**, loaded with pre-made, text-specific questions, saves time and makes creating and printing tests easy.
- **Lesson Plans** make teaching from the text easier.
- **PowerPoint Slides** speed lecture preparation.
- **An Instructor's Guide** provides additional resources for every chapter.

Student Resources:

- A chapter-by-chapter **Study Guide** helps students master key concepts.
- Additional **Self-Assessment Exercises** for each chapter help students build confidence and gauge their progress
- Lists of **Key Terms** in each chapter help students master the vocabulary of the field.
- Special "Insight," "Increase Your Knowledge," and "Critical thinking" sections provide additional insight, as well as fun facts on selected topics from the text.
- **Student Quiz Bank** - over 500 questions—give students unlimited opportunities for practice and review.
