**From the Publisher** This book is written for the layperson, but includes sufficient detail to inform all but the most advanced elder law attorneys, as well. Many financial planners have found it a great resource to recommend to their clients, too.

A great feature of this book are the numerous examples used to explain and show how the rules are applied to real-world situations. In addition, the case studies at the end of the book serve to pull together all the rules, really helping the reader understand the various options available to them. There is no charge for this service, available to all readers of this book. --This text refers to an out of print or unavailable edition of this title.
