

[PDF] Sedimentation In The Rupnarayan River: Hydrodynamics And Geomorphology Of A Tidal River (SpringerBriefs In Earth Sciences)

Swapan Kumar Maity, Ramkrishna Maiti - pdf download free book

Books Details:

Title: Sedimentation in the Rupnarayan
Author: Swapan Kumar Maity, Ramkrishna
Released:
Language:
Pages: 134
ISBN: 3319623036
ISBN13: 9783319623030
ASIN: 3319623036

Description:

This book explains the causes, mechanisms and dimension of sedimentation in the Rupnarayan River, as an example of a tidal river combining fluvial and marine processes. It is unique in addressing all the complexities arising from interactions of riverine and estuarine processes that lead to sedimentation and explaining all the river's hydrodynamic and geomorphological characteristics. The book presents precise data generation using continuous field monitoring and robust laboratory analysis, to enable readers to develop a systematic understanding of sedimentation processes in the Rupnarayan River. It is a valuable resource for students and researchers conducting research on fluvial geomorphology and sedimentology. In addition, the result of the work is also useful to the engineers, hydrologists, planners and other authorities affected by a number of aspects related to sedimentation.
